

Spotlight on Special Units:

The Elbert County Sheriff's Office Transport Division is made up of detention and patrol deputies who accomplish this statutory responsibility in addition to their normally assigned duties. Deputies are responsible for the transportation of inmates, juveniles and mental patients to and from different facilities across the State of Colorado and on occasion across the Country. During the third quarter of this year deputies traveled 3,902 miles and logged 103.5 hours in transport.

All ECSO deputies are trained in the safe transport of prisoners to insure that the deputies and the prisoners they are transporting reach their destination safely.
